**[A Concise Encyclopedia of the Philosophy of Religion] (By: Anthony C Thiselton) [published: August, 2005]** Anthony C Thiselton

With over three hundred entries and subentries on everything from agnosticism to Zen philosophy, this authoritative encyclopedia from one of the world's most renowned theologians explores all the major themes in the philosophy of religion. Entries identify key thinkers, terms, arguments, and ideas. The volume also features a helpful chronology and an index of names. This encyclopedia was shaped by years of student feedback. Anthony Thiselton asked students what themes, thinkers, and problems in philosophy of religion they found most stimulating and where they needed help, clarification, and explanation. The resulting volume will help other students navigate their studies with greater ease. It is also a handy reference for those seeking quick access to information on a particular person or concept.
